

Club des Cellules Gliales

19th Annual Meeting of the French Club of Glial Cells

May 24th, 2011, Hôpital Adulte de la Timone, Amphithéâtre HA-3
264, Rue Saint Pierre, 13005 Marseille

- 13:00 - 13:45 **KEY NOTE LECTURE**
Catherine Faivre Sarrailh (CNRS UMR 6231, Marseille)
The molecular architecture of the nodes of Ranvier
- 13:45 - 14:00 **Nicolas Tricaud** (INSERM U1051, Institute for Neuroscience, Montpellier)
Schwann cell polarization for a 3D myelination
- 14:05 - 14:25 **Violetta Zujovic** (Research Center of the brain and spinal cord Institute, Inserm-UPMC UMR-S975, CNRS UMR 7225, Paris)
Boundary cap cells: peripheral stem cell with a central "twist"
- 14:25 - 14:45 **Aude Panatier** (Département de Physiologie, Université de Montréal, Canada)
The tripartite synapse during basal transmission: a reality
- 14:45 - 15:00 Coffee
- 15:00 - 15:20 **Romain Fontaine** (Research Center of the Brain and Spinal cord Institute, Inserm-UPMC UMR-S975, CNRS UMR 7225, Paris)
VEGFR-3 receptor directly regulates murine neurogenesis
- 15:20 - 15:40 **Emmanuelle Huillard** (Eli and Edythe Broad Institute for Stem Cell Research and Regeneration Medicine, San Francisco, USA)
Cross antagonistic interactions between Olig proteins and Id4 regulate brain tumor formation
- 15:40 - 16:00 **Romain Marinier** (INSERM U1028, Brain Dynamics and Cognition Team, Lyon)
Domino effect of auto-antibodies in Neuromyelitis Optica disease
- 16:00 - 16:45 **KEY NOTE LECTURE**
Alain Bessis (ENS, Paris)
Microglia as a partner of synaptic function
- 17 :00-17 :30 Concluding remarks and General Assembly of the « Club des Cellules Gliales »

CLUB DES CELLULES GLIALES

Board : A. Baron Van Evercooren (Chairwoman), H. Chneiweiss (Co-chairman), T. Amédée (Secretary), M. Touret (Treasurer), L. Decker, P. Durbec, JP Mothet, B. Nait-Oumesmar, N. Spassky, JL Thomas

Faculté de Médecine Pitié-Salpêtrière, 105 Bd de l'Hôpital, 75649 PARIS Cedex 13
